The Fine Art of Living.

Perfected.

FROM THE DIRECTOR

The idea of simplicity in complexity, 'shibui' in Japanese aesthetics allows subtle and complex details, textures to exist in a balance of beauty and purpose. This balance of simplicity and complexity ensures that new meanings emerge and enrich the aesthetic value continuously. **Kessaku**, meaning a *masterpiece* in Japanese, our exclusive residential offering, is an exemplification of this thought, with an artful setting of diverse elements both formal and functional. The Kessaku precinct offers five exclusive towers: Sora, Niwa, Mizu, Faia and Zefa, inspired by the five natural elements and the bespoke privilege of two club houses: Midori - The Garden Club and Kaze - The Sky Club.

The concept reveals itself layer by layer, beginning with the modern architectural vision of Callison,* that recalls the grace of the garden city and creates a contemporary paradigm of seamless inside-outside living. The landscaping by Design Cell,** subtly complements the overall spatiality in a very contextual and unobtrusive manner. Our interior narrative is qualified by Studio Wrap*** with a modern eclectic discourse that creates a luxury attuned to the taste of the global family. This experience is further enhanced by a personalised home intelligence system that's virtually invisible and intuitive to ensure comfort and the highest degree of security.

We believe that the grandness of the masterpiece is revealed by its details, in our case, the architecture, the choice of exquisite materials, state-of-the-art technology and top of the line service and experience.

And finally, a masterpiece is a labour of love and in this pursuit we have worked tirelessly for the last several months with the best in the business, to ensure that every little detail at Kessaku is perfected to exceed your expectations in every sense and set new industry benchmarks.

Kessaku is the coming together of diverse perspectives in a beautiful balance. We are truly proud to present it as an iconic and artful statement in exclusive living to Bangalore.

傑作 KESSAKU

The Kessaku precinct offers five exclusive towers — Sora, Niwa, Mizu, Faia and Zefa, inspired by the five natural elements in Japanese. It also offers the unique privilege of two premium clubhouses, Midori and Kaze.

空 SORA

SORA manifests the home of the soul, thought and all energy.

庭 NIWA

NIWA symbolises the verdant garden nurturing everything from the very earth.

水 MIZU

MIZU signifies the deepest lake whose waters infuse tranquillity.

ファイア FAIA

FAIA epitomises the idea of vibrancy and energy.

ゼファー ZEFA

ZEFA embodies the gentle zephyr that caresses and nourishes all life.

緑 MIDORI The Garden Club

MIDORI is your garden club. It embodies the idea of encompassing lush greenery.

風 KAZE The Sky Club

KAZE is your club in the sky. It embodies the idea of the whispering wind — wild, restless and free.

Every masterpiece is the culmination of many strokes, colours, layers and thoughts. Just like notes in a symphony, each one of these is integral to creating a great work of art.

From architect to interior designer, lighting to landscape consultant, many people have played defining roles in creating the masterpiece that is Kessaku.

CALLISON - Design Consultants

"We set out to create an elegant, timeless residence in Bangalore – something that echoes the qualities of a quaint, colonial, garden city.

We like to think we succeeded beyond all our collective expectations. Kessaku is a compilation of residences that redefine grace and refinement through connections with nature. The u-shaped building exudes a sense of sleek modernism, ensuring breathtaking, uninterrupted views from every internal space. This is beautifully juxtaposed against the lush greenery and expansive decks that speak to a more elegant and balanced way of life."

Callison design consultants are headquartered in Seattle, USA. Over the last ten years, they have consistently been regarded as being at the very top of their field. With awards galore and just about every distinction in the book, they are the very last word in design.

Their long list of prestigious projects include, Microsoft Campus - Redmond, Washington, The Pearl - Porto Arabia - Doha, Qatar and Grand Gateway - Shanghai, China.

Jae Kim -

Diljit Sethi -

Rashne Shroff -

Ravindra Punde - Partner, Co-founder,

DESIGN CELL - Landscape Architects

"We believe that in order to create a design with lasting distinction, one needs to understand and create a planning framework. We have a set of unwavering principles that are applied no matter where our project work takes us – values, purpose, relevance to local context, visual imagery and relief. Our work is guided by these few underlying principles which form our approach towards any design. With Kessaku we have attempted to create a tropical oasis that compliments and accentuates the architectural space and form."

Design Cell is a multidisciplinary international firm, established in 1987. The firm's partners are dedicated to creative and technical excellence in every endeavour. Their list of noteworthy projects include Golf Links Business Park, Kempegowda International Airport - Bangalore and Formula 1 - Noida.

Gunjan Gupta - Founder and Director

Studio Wrap - Interior Design Consultants

We approached the idea of "Kessaku" in our signature style of creating a narrative that encapsulates the life of a global Indian family. Breaking away from the norm of 'branded' interiors that have little or no relevance in a country that has a 1000-year-old cultural history, this project looks at clichéd 'luxury interiors' through a fresh lens that combines artful Indian taste with cutting edge contemporary design."

Wrap is India's first contemporary luxury and lifestyle brand established on socially and environmentally sustainable principles. Wrap was founded by Gunjan Gupta in New Delhi in 2006, as a design studio for culturally led interior and product design services. Gunjan is India's leading product designer and one of the emerging names on the international design circuit. She is a design entrepreneur who has been voted, one of five names to watch out for in luxury, by Fortune Magazine.

Abhay Wadhwa - Founder, Design Principal

AWA - Lighting Design Consultants

"Our approach is to create a lighting design solution such that we can incorporate lighting seamlessly into architectural intent and detail. We believe that every lighting design solution must add value to the architectural formality of the project, including methods of creating a visual hierarchy by picking points of interest and appropriately accentuating different areas. For Kessaku, while all light accents fall into a perfect symphony, the high note is the crown of the building."

Headquartered in New York City, AWA is an international architectural lighting design firm founded by Abhay Wadhwa. AWA designs and implements lighting solutions for infrastructure, hospitality, commercial and residential projects, creating solutions that evoke a sense of place. Among their many notable projects are the World Trade Centre - Bangalore, The Golden Temple - Amritsar, Peak Tower - Hong Kong SAR, 575 Lexington Avenue - New York and U Bora Tower - Dubai.

EXPANSIVE LIVING AND DECK SPACE

And avant-garde design is
a leitmotif

The living room of your residence in the sky extends into the dining area and each end of this immense space opens out onto a large deck, warming it with natural light and excellent cross-ventilation.

DRY KITCHEN AND DINING

Where entertaining is
effortlessly stylish

The carefully configured dry kitchen bay abuts the living and dining area. So you can whip up delights while carrying on an engrossing conversation.

EXPANSIVE DECKS

And you can throw parties
that are the talk of the town

Intelligently designed service flow ensures that the service lobby for your floor has a separate access to your apartment utility area, which services the dining deck via swing doors. So, your parties will be like carefully orchestrated symphonies.

Behold the city spread out
before you

Wide decks offer seamless inside-outside living and a breathtaking cityscape.

Where chefs find their muse

The dry kitchen offers every convenience you could possibly wish for, like a teppanyaki grill and wine cooler.

WET KITCHEN

And cuisine is elevated to art

We give you a state-of-the-art, multi-zone wet kitchen, fully-equipped to produce a delectable spread. Your modular kitchen comes packed with features and appliances ranging from hobs and ovens to refrigerators and microwaves. A capacious larder ensures you never run short of ingredients. A mini herb garden in the adjoining utility space ensures your cuisine is always aromatic and bursting with fresh flavours.

Where you find sublime repose

Find your haven in the artfully detailed opulence of airy, expansive master suites, that gracefully spill out onto spacious private decks.

Discover the privilege of two consummate master suites with dual vanity suites, exquisite bath suites, private decks and every luxury your heart desires.

Walk into a perfect state of beauty and balance

Preen and pamper at leisure with dual vanity suites designed to elegantly house everything from your Manolo Blahnik shoes to Zegna suits.

POWDER ROOM

Luxuriate in the many hues of indulgence

All the bathrooms are jewelled bath suites, carefully nuanced and crafted in exquisite materials.

MASTER BATH SUITE 1

And soak in the
glorious cityscape

Full glass doors offer unhindered views, while your lavish bath soothes your senses.

MASTER BATH SUITE 2

GUEST BATH SUITE

LIBRARY BATH SUITE

Where imagination finds its wings

The children's bedroom based on the concept of 'wanderlust' will be an apt background for many flights of fantasy and a wonderful childhood.

Entertainment is immersive

The family lounge takes home entertainment to a whole new level of seamless sensory and aesthetic elevation, enabled by personalized state-of-the-art home automation. So choose from a virtually unlimited resource of movies across genres and sit back and enjoy.

And thoughts and ideas
find their rightful space

The patiently detailed library on the concept of new perspectives, has an antique leather couch, geometrical book shelf and whimsical rock study table. It is an apt place to just retire with your thoughts and find new perspectives.

Where guests feel at home and inspired

Understated and elegant, the guest bedroom evokes the airiness of a garden, with its floral *bageecha bistra* bed.

Make a cerulean splash

The duplex double height deck experience is further elevated by a plunge pool*. So immerse yourself in its cerulean waters to get your day started or find relaxation here at the end of it.

To ensure that, we have collaborated with the best, like concierge services hosted by Quintessentially Lifestyle, Sound Of Music for bespoke home automation and Varenna Poliform for the immaculately designed and produced kitchen systems.

Life at Kessaku is:

EFFORTLESS

A home system skillfully aligned with your whereabouts and mood you are in, thereby adjusting its parameters accordingly.

SECURE

At Kessaku, you can conveniently monitor, manage and control the safety of your home from a faraway location. The internet-based home security cameras and strategically placed, light triggering motion sensors integrate seamlessly to offer you the best of home surveillance services.

ACCESSIBLE

Now you can control blinds, check air quality, unlock your home for a visitor from the other end of the hemisphere.

INTELLIGENT

Turn on the heater using a state-of-the-art GPS system on your way home. At Kessaku, the possibilities are endless.

CONVENIENT

RFID, NFC, SIRI, gesture technologies enable physical objects and mobile devices to be connected, thereby facilitating an easy access to information through a touch of a smartphone.

CONNECTED

SIP Intercom for internet telephony and apartment to apartment calling.

MAINTAINED

A dedicated on-site system integrator for customizing solutions.

INTEGRATED

A whole gamut of services perfectly complements the world-class amenities at Kessaku.

Sound of Music for Kessaku:

Sound of Music is a leading technology solution provider for homes, enabling eminent living spaces with unique integrated solutions. The underlining idea is to create a truly secure, connected and comfortable living experience.

Sound of Music has certain core values which govern each of its integrated solutions at Kessaku. Based on a belief that technology should be invisible, easily accessible and supremely user-friendly, the following core values are synonymous with Kessaku's central theme:

DESIGN

Creating great solutions with a design based approach and a belief that interactive design and user experience are pertinent to every stage.

USER EXPERIENCE

Designed for you, to facilitate and improve the way you interact with the technology that surrounds you. The core of the design is the human interaction with gadgets and devices connected to the internet.

SIMPLICITY

Automation isn't only about adding technology to your life; it's also about simplifying all the technology that's already in use. It's not about switching between different applications, but in having a single unified application that controls everything. Simplicity is all about reducing the layers.

SOLUTION

The solution is designed, built and guaranteed to work together flawlessly as a complete system, rather than an assortment of unrelated parts.

ACCESS AND SECURITY

Communication post - unmanned, first line of access control. Robust operations include long range RFID for car video communication between the apartment and visitors.

Lift control panel - biometric access / code access to your private floor.

Private level access - apartment level video door phone.

LIGHTING

Mood preferences, scene settings, comfortable ambience and zone lighting are achieved using high levels of personalized settings.

AV CONTROL

Complete HDMI solutions enable high-performance signal management with groundbreaking features, designed to deliver trouble-free switching and distribution of all your media as well as all AV controls.

SHADES

One-touch operations, continual system updates and scene settings make shade operations a worry-free task. Integration with other systems enables it to be a near predictive experience.

QUINTESSENTIALLY LIFESTYLE

Concierge and personal butler

Kessaku brings you Quintessentially Lifestyle - the finest concierge and butler service in the world. Launched in Soho, London in 2000, its services now span 63 cities across the globe.

- Stay up to date with what's hot and what's not through weekly newsletters in your city and receive invitations to charity evenings, gala balls, film premieres and exclusive parties

Varenna Poliform for Kessaku: Kitchen design systems

Varenna Poliform is an Italian furniture design firm with a legacy of more than 70 years. They make modern-minimalist furniture that is produced purely in Italy and distributed worldwide.

For Kessaku they have used a minimal composition against the highlight of a colourful accent on the walls. There is a great measure of finesse and technical detail that creates a clean sophisticated statement.

Sustainability

Kessaku is as conscientious a building as it is exclusive. We believe in sustainable and responsible living and Kessaku epitomises that belief in every amenity and feature.

- Large glazed windows allow for plenty of natural light and cross ventilation, conserving power
- Charging stations have been provided to encourage the use of electric vehicles
- Provision of bicycle parking spaces to promote use of alternative transportation
- Rainwater harvesting helps conserve water and replenish the water table
- Gardens and landscaped areas are irrigated with recycled water
- Low Volatile Organic Compound (VOC) paints are used for internal coatings and sealants to ensure a healthy indoor environment
- Design and architecture is sensitive to the needs of the differently abled
- Designed for IGBC gold certification

Waste management

A comprehensive waste management plan following best practices, will effectively render Kessaku a Zero Waste Zone.

The four categories of waste that will get classified at source are: wet waste / organic waste, dry waste / recyclable waste, sanitary / medical waste and rejects. 86 % of wet, dry and garden litter will be processed and managed through composting and recycling within the well designed processing units within the development. A special e-waste stream that includes dry cell batteries and CFLs will also be recycled on site while sanitary waste will be sent to a medical waste facility. Rejects that are unmanageable on premise will be sent to designated landfills. Waste management systems have been designed on a report done by Sahaas - an NGO that works with BBMP on effective management of waste.
